

The background is a dark blue gradient with a subtle pattern of white dots. Overlaid on the left side are several concentric circles and a large circular scale with degree markings from 140 to 260. Some circles have arrows indicating a clockwise direction.

# PROXIMITY

Presentation Slides

Group 16: RYAN ROTTMANN, RYAN WORTMANN, SONG VU NGUYEN,  
NATHAN KULZCAK, JOHN OATELY

# What is Proximity?

- Proximity is a social media site built with location and face to face interactions in mind.
- The idea is to get people meeting up in person again!
- Do this through keeping track of proximate events/friends and encouraging the user to go to them.
- Proximity is meant to work, even when the user does not have internet access.

# Modules

- AccountModule: CreateAccount(),VerifyLogin()
- MapModule: GetEvents(), CreateEvents(),DeleteEvent()
- FeedModule: GetFeed(),CreatePost(),DeletePost()
- MessagingModule: GetMessages()
- SearchModule: Search()

# System Requirements

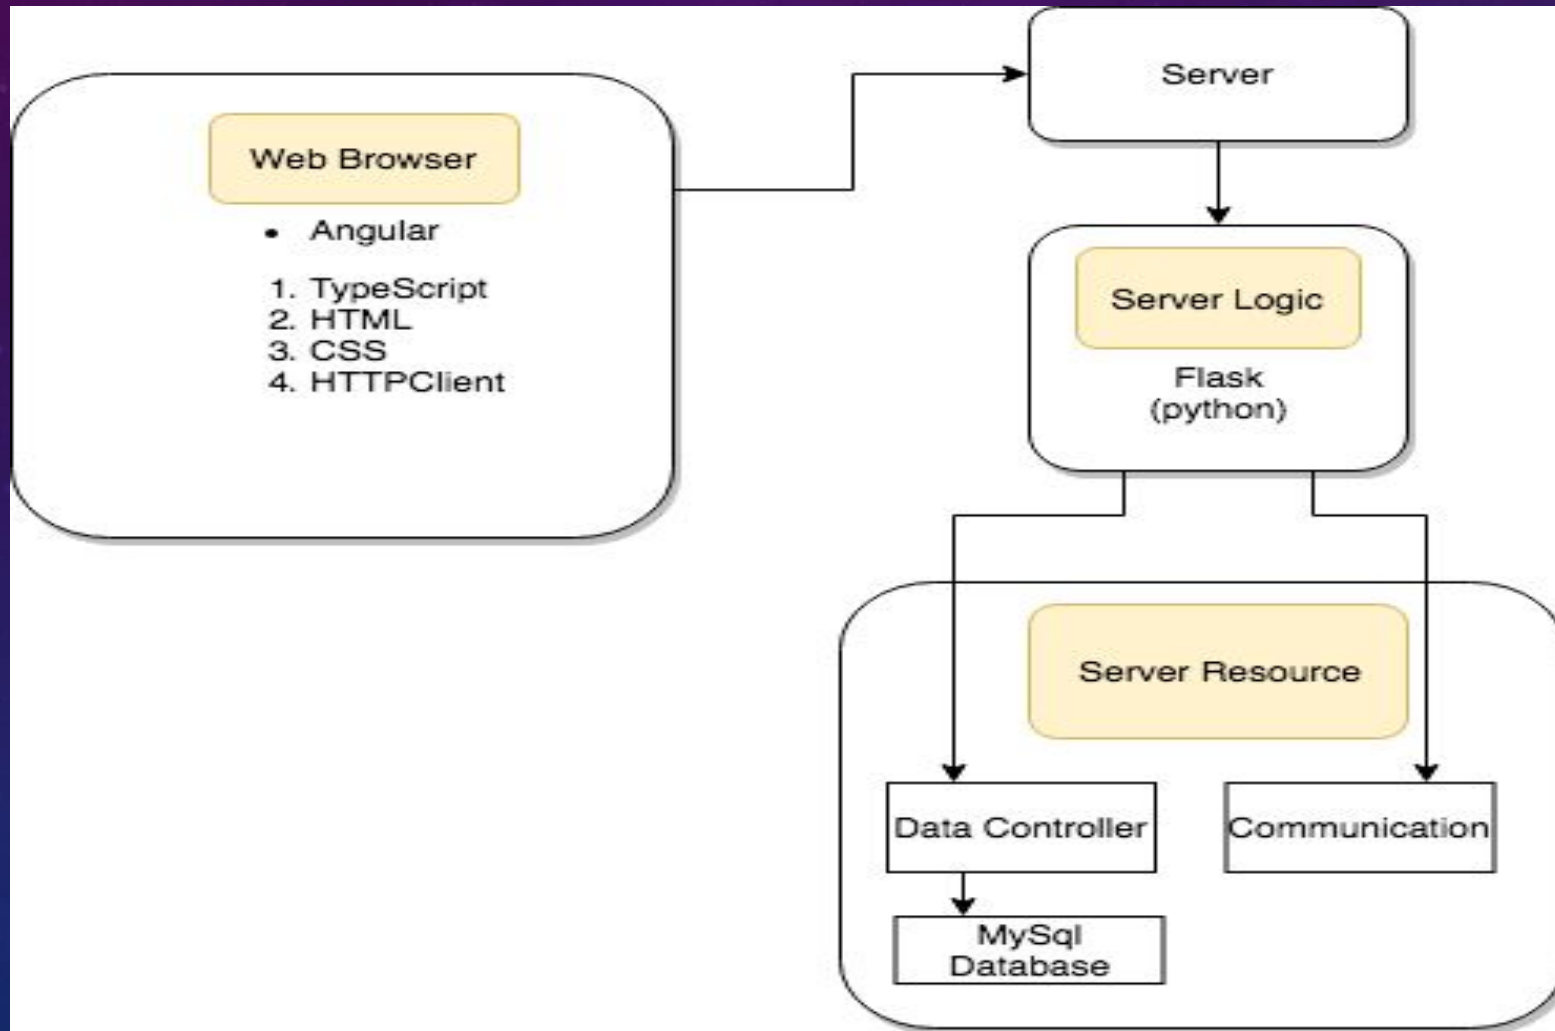

Screen Display

An internet connection

A modern web browser (Not internet Explorer)

# System Diagram

# Future Works

For the future, there are many possibilities to what we can do to improve the web app:

- Implement unfinished functions: direct/group messaging, group functionality, create map event
- Implement more new functions: customize profile, multimedia posts etc.
- Get user feedback from public testing
- etc.
