PROXIMITY

Keep your friends close...

Mission Statement

Our Mission at Proximity is to bring people together with real face to face interactions in a world where people's lives are run by technology. We encourage and help foster a tight knit, friendly, online community in which our users can use our App to plan events and communicate with friends. Proximity is the only social media app that you will need to make plans with your friends in the future.

User Statements:

Thomas Brown:

"Proximity is the Only App that I use to make plans with friends anymore."

Mike Rollins:

"This is the coolest app! I will never miss a party with my friends anymore."

Steven Chapel:

"Proximity's fun events got me out of my mom's basement"
